Health's top innovators in 2013

Clinical supervision: from staff nurse to nurse consultant. Part 9: models of implementation
Fowler, J. *British Journal of Nursing*, 2013, vol. 22, no. 21, p. 1261

Clinical supervision: from staff nurse to nurse consultant. Part 10: prioritising and making time

Leadership excellence: weaving multiple initiatives and frameworks to advance culture change
Albert, D. *Nurse Leader*, 2013, vol. 11, no. 6, p. 41-44

Perinatal domestic abuse: midwives making a difference through effective public health practice

Retention, burnout and the future of nursing
Brunetto, Y. & Teo, S. *Journal of Advanced Nursing*, 2013, vol. 69, no. 12, p. 2772-2773

Nurse retention: a review of strategies to create and enhance positive practice environments in clinical settings

Survey: Around half of nurses and midwives report workplace aggression in the past month: 36% report violence from patients or visitors and 32% report bullying by colleagues

Organisational change stressors and nursing job satisfaction: the mediating effect of coping strategies

Please note that NIPEC is not responsible for the content of external internet sites
Workforce (continued)

Implementing large-scale workforce change: learning from 55 pilot sites of allied health workforce redesign in Queensland, Australia

Using the Donabedian framework to examine the quality and safety of nursing service innovation

Caseload midwifery care versus standard maternity care for women of any risk: M@NGO, a randomised controlled trial

Policy/Strategy

A systematic review of barriers to and facilitators of the use of evidence by policymakers
Oliver, K. et al. BMC Health Services Research 2014, vol. 14: 2 (Pre-publication information)

Education/Development

Preceptorship: professional development and support for newly registered practitioners

Successful preceptorship of newly qualified nurses

Emotional intelligence: enhancing values-based practice and compassionate care in nursing

Re-examining definitions of spirituality in nursing research

The ‘sustainability lens’: a framework for nurse education that is ‘fit for the future’
Getting published: reflections of a collaborative writing group

Who writes, whose rights, and who’s right? Issues in authorship

Nursing on television: student perceptions of television’s role in public image, recruitment and education

Nurse leaders and the use of social media: becoming literate to lead
Beard, E. *Nurse Leader*, 2013, vol. 11, no. 6, p. 38-40

Factors influencing the ability to self-manage diabetes for adults living with type 1 or 2 diabetes

Development and assessment of the Health Values Healthy Eating Programme: an exploratory study

What affects the quality of diet of preschool children? A principal component analysis of maternal, child, and mealtime environment characteristics

Parental depression and child conduct problems: evaluation of parental service use and associated costs after attending the Incredible Years Basic Parenting Programme

The presentation of depression in the British Army

The introduction of intentional rounding to aid falls prevention in an acute stroke unit
Luxton, S. *FoNS Improvement Insights* 2013, vol. 9, no. 4

Effects of stroke on informal carers
(Literature review exploring the experiences of informal carers; although the article has a particular focus on Northern Ireland, the issues are also of global relevance)

Please note that NIPEC is not responsible for the content of external internet sites
Education/Development (continued)

Herpes zoster as a risk factor for stroke and TIA. A retrospective cohort study in the UK
(Open access article - ahead of print - reporting findings of a study which confirms that having shingles, especially as a younger person, increases the risk of stroke in later life http://www.neurology.org/content/early/2014/01/02/WNL.0000000000000038.full.pdf+html?sid=94a3fe05-f33a-49cc-95af-3fc539be65b4

Gentle persuasion works well
(Discussion on how best to approach potentially sensitive subjects with patients)
Dean, E. Nursing Standard, 2013, vol. 28, no. 5, p. 20-21

Disclosing a diagnosis of dementia: a background to the phenomenon

Family-centred care: theory to practice

A multi-disciplinary approach to medication safety and the implication for nursing education and practice

How do university education and clinical experience influence pre-registration nursing students’ infection control practice? A descriptive, cross sectional survey

The Safe Clinical Assessment: a patient safety focused approach to clinical assessment

Patient safety in nursing education: contexts, tensions and feeling safe to learn

Interprofessional service improvement learning and patient safety: a content analysis of pre-registration students’ assessments

Learning in action: developing safety improvement capabilities through action learning

Factors influencing evidence-based practice among community nurses

Group supervision: an introduction to annual reviews in midwifery supervision?

Intrapartum uncertainty: a feature of normal birth, as experienced by midwives in Scotland
Education/Development (continued)

What is a good midwife? Insights from the literature
Borrelli, S.E. Midwifery, 2014, vol. 30, no. 1, p. 3-10

Patient Experience

Socio-economic differences in food group and nutrient intakes among young women in Ireland

Interventions on mealtime difficulties in older adults with dementia: a systematic review

Inspiring nursing acts as an antidote to bad media coverage
Jones, M. Nursing Times, 2013, vol. 109, no. 48, p. 11 (brief item)

Understanding and improving patient experience: a national survey of training courses provided by higher education providers and healthcare organizations in England

Music therapy improves sleep quality in acute and chronic sleep disorders: a meta-analysis of 10 randomized studies

Clinical and cost-effectiveness of compression hosiery versus compression bandages in treatment of venous leg ulcers (Venous leg Ulcer Study IV, VenUS IV): a randomised controlled trial
(Randomised controlled trial carried out in 34 centres in England and Northern Ireland)
Ashby, R.L. et al. The Lancet, December 2013, (early online publication)

Understanding and measuring the effects of patient and public involvement: an ethnographic study

Using exercise to improve quality of life for people with heart failure

Please note that NIPEC is not responsible for the content of external internet sites
Patients Experience (continued)

Cross-sectional study: British secondary school students report frequent abdominal pain with associated physical and emotional symptoms

The Quiet Room: improving the acute care psychiatric environment
Smith, P. & Millar, M. FoNS Improvement Insights 2013, vol. 9, no. 1

Negotiating a labyrinth: experiences of assessment and diagnostic journey in cognitive impairment and dementia

Quiet at night: implementing a Nightingale principle

Lost in transition: child to adult cancer services for young people

Realities, difficulties, and outcomes for mothers choosing to breastfeed: primigravid mothers experiences in the early postpartum period (6-8 weeks)
