A framework for assessing health system resilience in an economic crisis: Ireland as a test case  

Considering quality of care for young adults with diabetes in Ireland  

Making time to care  
(The ‘Releasing Time to Care’ initiative, which has been implemented in Scotland in the last five years, is not only eliminating inefficiency but also producing additional benefits)  

Systematic review of the application of the plan-do-study-act method to improve quality in healthcare

Introducing intentional rounding: a pilot project  
Dewing, J. & O’Meara, B. *Nursing Standard*, 2013, vol. 28, no. 6, p. 37-44

How do we deal with sepsis in the twenty-first century?  

Audit of missed or delayed antimicrobial drugs  
Wright, J. *Nursing Times*, 2013, vol. 109, no. 42, p. 11-14

A hospital nutrition improvement programme  

Sharing nutrition needs from care home to ward  
Leadership

Confidence in leadership among the newly qualified

Advancing practice: from staff nurse to nurse consultant. Part 5: planning a session

Clinical supervision: from staff nurse to nurse consultant. Part 6: implementation at a strategic level
Fowler, J. *British Journal of Nursing* vol. 22, no. 18, p. 1079

Workforce

Addressing the mental health nurse shortage: undergraduate nursing students working as assistants in nursing in inpatient mental health settings

Work-life imbalance and the pressures that are making nurses sick

What sort of nurses do we need for integrated care?
Ross, F. *British Journal of Nursing*, 2013, vol. 22, no. 17, p. 1027

Addressing workforce capacity and safety issues for new nurse-led services through competency modeling
Howard, J. & Barnes, K. *Clinical Governance*, 2012, vol. 17, no. 4, p. 317-331

Midwifery independence - past, present and future

Policy/Strategy

A Canterbury tale: an invaluable education. One New Zealand health organisation can show us how to truly integrate health and social care

The role of healthcare strategies in controlling antibiotic resistance

An agenda for clinical decision making and judgment in nursing research and education
Thompson, C. International Journal of Nursing Studies, 2013, vol. 50, no. 12, p. 1720-1726

Acceptability and perceived barriers and facilitators to creating a national research register to enable 'direct to patient' enrolment into research: the Scottish Health Research Register (SHARE)
Grant, A. et al. BMC Health Services Research 2013, vol. 13, 422 (18 October 2013) (Open access article)

Content of clinical supervision sessions for nurses and allied health professionals: a systematic review

Understanding grounded theory

Preventing and managing complications of CVADs

An alternative model of prescribing stoma appliances

Drug interactions and herbal remedies
Kincaid, L. Nursing Times, 2013, vol. 109, no. 41, p. 15

Non-pharmacological treatments for patients with depression

A communication project to prevent pressure ulcers

The role of nutrition in preventing pressure ulcers

Diabetes: increasing the knowledge base of mental health nurses

Introduction to genetics and genomics: a revised framework for nurses
Education/Development (continued)

Integrative annotation of variants from 1092 humans: application to cancer genomics
(Reports on the discovery by a team of researchers of a new source of cancer triggers, found buried in the large expanse of DNA previously dismissed as “junk”)

Oral cancer: risk factors, treatment and nursing care
Foulkes, M. Nursing Standard, 2013, vol. 28, no. 8, p. 49-57

Common psychosocial stressors in middle-aged women related to longstanding distress and increased risk of Alzheimer’s disease: a 38-year longitudinal population study
(A large, long-term Swedish study reveals that dealing with stress during middle age may trigger lasting physiological brain changes, increasing the risk of developing dementia later in life; results were published online in the journal BMJ Open)

Nausea and vomiting in palliative care

Staff and relatives' perspectives on the aggressive behaviour of older people with dementia in residential care: a qualitative study

Attitudes to death: a time to pose difficult questions

Hospice transfer for patients at the end of life: part 1

Hospice transfer for patients at the end of life: part 2

Research on midwifery continuity of care shows many advantages
Page, L. British Journal of Midwifery, 2013, vol. 21, no. 10, p. 690-691

Editorial for Midwifery special issue on MDGs: Midwives and the Millennium Development Goals
Lockey, B.A. Midwifery, 2013, vol. 29, no. 10, p. 1073-1074
Patient Experience

Effects of complementary therapies in cancer care
Briscoe, J. & Browne, N. *Nursing Times*, 2013, vol. 109, no. 41, p. 18-20

Intimacy after cancer
Trueland, J. *Nursing Standard*, 2013, vol. 28, no. 9, p. 20-21

Improving care and quality of life for patients with lung cancer
Bennett, A. & White, J. *Nursing Standard*, 2013, vol. 28, no. 9, p. 50-58

Improving efficiency and safety for patients who are unable to self-administer insulin

Practitioner and patient experiences of giving and receiving healthy eating advice

The effect of visual impairment on patients' falls risk
Newton, M. & Sanderson, A. *Nursing Older People*, 2013, vol. 25, no. 8, p. 16-21

How nurses can help ease patient transitions to end-of-life care
Lewis, K. *Nursing Older People*, 2013, vol. 25, no. 8, p. 22-26

Preferences and priorities for ongoing and end-of-life care: a qualitative study of older people with dementia resident in care homes

CBT-based support groups for postnatal depression
Alexander, P. *Nursing Times*, 2013, vol. 109, no. 41, p. 12-14
